YOUR INVITE'S NOT IN THE POST

**Artist who did not receive invite to the
Tate Tanks launch almost starves**

I sneaked in using another artist's name. The saltfish and cream cheese bagels weren't up to much although the mini fish and chips were particularly enjoyable and the wine was just the right side of paint stripper. Unfortunately, due to the need to stock up on my protein levels I missed the live performance and the video screenings but I heard they were very good.

WANTING TO BE AN ARTIST IS MAD, CLAIMS PSYCHIATRIST

A psychiatrist claims that people wanting to become artists are suffering from a severe form of mental illness and fights for controversial aversion therapy to be recognised by the British Medical Association. "It's as addictive as gambling and the severest of sufferers lose most of their productive lives to this disease. My therapy nips it in the bud before it becomes a full blown psychosis and could save a person years of torment".

GOVERNMENT DEFENDS ARTS BUDGET CUTS

Hardship is beneficial to the creative mind, says Arts Minister

You only have to look at the past to realise that giving money is a bad thing and stifles creativity. Look at the great innovative periods in art history, many artists didn't have a pot to piss in and died of TB. It's for their own good.

The artist, when confronted with their lie, angrily responded "I should've been in it anyway, my work looks a lot like Damien Hirst's and I was doing it before him".
